

## Image Guide | City Nature Challenge

April 26-29, 2019

These images are available to media and museum partners in order to promote [City Nature Challenge 2019](#). If you have questions or would like to schedule an interview, please contact Senior Director of Communications Rebecca Handelsman at 619.255.0262 or [rhandelsman@sdnhm.org](mailto:rhandelsman@sdnhm.org).

Image	File Name	Photo Caption and Credit Info
 A photograph of a Red Diamond Rattlesnake coiled on a light-colored, textured rock surface. The snake has a brown body with a pattern of white diamond-shaped spots.	CNCBPBB1	Red Diamond Rattlesnake. Photo by Jim Varnell.
 A photograph of a California Tree Frog sitting on a dark, moist, earthy surface. The frog has a light-colored body with dark spots and a prominent white throat.	CNCBPBB2	California Tree Frog. Photo by Brad Hollingsworth.
 A photograph of a Great Blue Heron in flight over a body of water. The bird is white with long legs and a long neck, captured in a dynamic pose.	CNCBPBB3	Great Blue Heron. Photo by Beth Redmond-Jones.
 A close-up photograph of a Collared Annual Lupine plant, showing several small, light purple flowers with white centers on a green stem.	CNCBPBB4	Collared Annual Lupine. Photo by Jon Rebman.
