TITANIC

THE ARTIFACT EXHIBITION

INTRODUCTION

Titanic was conceived in 1907 and met with disaster in 1912. The story has been told and retold, but never more poignantly and passionately than by the artifacts

“Titanic was just a ship before I went to this exhibit.”

in this Exhibition. Painstakingly recovered from the debris field surrounding the wreck site and artfully conserved, these three-dimensional objects—more than words and images—represent the vessel and the 2,228 souls who journeyed with her into history.

Upon arriving at the Exhibition, you will “board” *Titanic* using a replica ticket from White Star Line. Each boarding pass includes the name of an actual passenger on the Ship. You will track the experience of the passenger on your boarding pass as you move through the Exhibition.

The Galleries in the Exhibition feature real artifacts, room re-creations, and personal histories. Each one highlights a different chapter in the compelling story of *Titanic*’s maiden voyage.

The activities in this packet are designed to enrich your experience before, during and after your visit to the Exhibition.

TITANIC DISCUSSION QUESTIONS

1. Although *Titanic* sank in 1912, the liner is a great source of legend and historical curiosity. Why do you think *Titanic* continues to **capture our attention and imagination**?

2. Is exploring the ocean depths similar to exploring outer space? What are the conditions for human survival underwater and in space? Do you think it is **more technologically challenging** to explore outer space or the “inner space” of the ocean? Why?

3. Sometimes it takes a major disaster like the sinking of *Titanic* to change outdated laws and regulations. Research *Titanic*’s **legacy to safety**. What standards, provisions, regulations and safety measures were instituted? Have any of these regulations been updated in recent years? What prompted those changes?

4. Comparisons have been made between the Challenger space shuttle explosion and the sinking of *Titanic* as well as between *Titanic* and the terrorist attacks of September 11, 2001. **Investigate these incidents**. What do they have in common? Could any of these disasters have been avoided or prevented?

5. In 1912, feminists in the United States and Great Britain were seeking emancipation for women and the right to vote. The *Titanic* disaster, where the life saving policy was **“women and children first”**, highlighted a problem not previously considered: true equality means equal risk of life with men in times of adversity. Is this issue still relevant? Would the “women and children first” rule be used today on a sinking vessel?

FACTS ABOUT *TITANIC*

1. Why did the Ship hit the iceberg sideways instead of head-on?
2. Why didn't the lookout officers see the iceberg until it was very close to the Ship?
3. How long did it take for *Titanic* to sink from the time it hit the iceberg until the time it disappeared from view?
4. What was the name of the Ship that picked up the survivors in the lifeboats?
5. How deep is the ocean at the site of *Titanic*'s wreckage?

This Ship found the survivors in the lifeboats.

1. *When the lookouts saw the iceberg straight ahead, they ordered the officers on the bridge to steer the Ship out of the way. However, the Ship was too close to the iceberg which then scraped the hull allowing water into the lower decks.*
2. *There was no moon that night plus there were no binoculars in the crow's nest. The binoculars were aboard the Ship on its first leg—Belfast to*

Southampton—but they were never seen after that. No one knows what happened to them.

3. *About 2 hours.*
4. *The Carpathia.*
5. *12,460 feet or 2.5 miles deep.*
